

**City & Guilds 2382-20 Level 3 Certificate
in the Requirements for Electrical Installations
BS 7671:2008 17th Edition Wiring Regulations —1 Day update**

This course and qualification is suitable for practicing Electricians, domestic electrical installers, contract managers, allied trades and other related trades with a good working knowledge of 16th Edition Wiring Regulations. Candidates must already hold the City & Guilds Certificate 16th Edition (BS 7671:2001) 2381 or recognized equivalent to the City & Guilds 2381 since June 2001. If you hold these existing qualifications, you need only update your knowledge by attending our 1 day course and sitting the associated online test. This updated qualification is called the 2382-20.

If your 2381 qualification was obtained prior to June 2001 you will need to attend the 3 day 2382-10 course and take the full online examination.

The course updates candidates on the significant differences between the 16th and 17th editions. The course focuses on the main additions and alterations that have been incorporated in the BS 7671:2008 17th Edition. It ensures that students are conversant with the format, content and the application of the current edition of the Requirements for Electrical Installations BS 7671:2008 17th Edition. It should be noted that limited instruction will be provided on existing requirements and electrical principles.
